SAMANWAY PRATISHTHAN

United Knowledge -- United Experiment -- United Attempt

समानीव आकृतिः समाना हृदया निवः । समानमस्तु वो मनो वः सुसहासति॥

(United be our purpose, harmonious be our feelings, collected be our mind, in the same way as all the various aspects of the universe exist in togetherness, wholeness.- Rigveda)

"SamanwayPratishthan" is an organization, highly committed to taking the entire society to a higher level of enlightenment through correct thinking, conduct, and efforts. INITIATIVES OF SAMANWAY PRATISHTHAN

अंत्योदय

THE PEOPLE PROJECT

■ ANTYODAYA

Uplift of the last, Uplift till the last.

**पथका अंतीम लक्ष्य नहीं, सिंहासन चढ़ते जाना |
सब समाज को लिए साथ में आगे ही बढ़ते जाना।**

(To climb the throne is not the goal of the path.
Let's move ahead together as a single society.)

The development and upliftment of the final member of each civilised society serve as a marker for that society.

Antyodaya's mission for society is to be devoted to and engaged in fostering the development of the underprivileged class. Currently, to reach those in the lowest socio-economic strata, the government has many such programmes that can be beneficial to citizens from the time of their birth until their death.

The primary goal of this project is to accurately direct any person in obtaining information about all relevant papers for his lifetime via a "virtual" office.

Through this "virtual" office, information on the numerous programmes given by the government and other NGOs, institutions, and other organisations, eligibility to receive their benefits, documentation needed for the same, and its procedure, would all be accessible with just a single click.

Along with this, "virtual" assistance will be provided to the general people to address their minor issues.

This is the age of hybrid technology where internet access is available practically anywhere in the world hence citizens no longer need to visit any offices in person to take advantage of any programmes. Instead, they get their job done through "virtual" visit to this "virtual" office. This is "Antyodaya's" benign gesture in support of Antyodaya. Antyodaya will continue as a campaign to help citizens develop self-reliance so they can work to find answers to their challenges.

■ SAMANWAY VIDYAPEETH

अनेकसंशयोच्छेदि परोक्षार्थस्य दर्शकम्।
सर्वस्य लोचनं शास्त्रं यस्य नास्त्यन्ध एव सः॥

(It clears many doubts and shows the meaning of what is obvious and what is not obvious. Shastra is the eye for everyone. One who does not possess it is indeed blind.)

The discussion on the New Education Policy (NEP) is still ongoing. During the COVID era, the education system was the subject of several innovations, such as the implementation of dual mode learning. However, are the students of the contemporary period capable of adjusting to these amendments? Do they possess the capacity to learn in a dynamic environment? All these questions are still unanswered

Our most significant topic right now, as well as one of our most crucial duties, is improving the students' capacity for learning. Many texts, like Shatavadhani and Vedic Mathematics, simplify learning for students. The Guru-shishya tradition, which Macaulay destroyed and which damaged the entire Indian education system, is now being reborn in front of us in the shape of mentoring.

Through "Samanway Vidyapeeth," a modest endeavour is made to create an auspicious beginning of the co-existence of tradition and modernity by fusing ancient Indian teaching methods with contemporary topics and giving context to the mythological experiment known as the Gurukul tradition.

SAMANWAY SHODH SANSTHAN

ज्ञान संध्यानं सम्पादित पादयेत

-चाणक्य

- (Let us empower ourselves through special knowledge.-Chanakya)

The topic of whether technological knowledge is actually sustainable and environmentally benign is of utmost importance since the world today advances via science and technology. Novel innovations evolving at a rapid pace are facilitating virtualization.

"SamanwayShodhSansthan" is an endeavour to prioritise research that will lead to harmony between technology and the environment.

The Academic Progress Index (API), a gauge of academic advancement, is the subject of most studies today. Since this field is currently not very relevant from the API point of view, there are numerous themes and places where, despite the tremendous potential for study, there has not been any actual research on these issues up to this point. Through "SamanwayShodhSansthan", efforts will be made to promote research on such obscure subjects. For instance: It wouldn't have been possible for the sculptures created decades ago to take their shape without the knowledge of some exceptional technology. Enormous palaces have been constructed for thousands of years, yet modern structures developed with cutting-edge technology and resources barely last for a few years. It is important to consider and examine the science and technology of the era that allowed these structures to stand strong for so long.

There will undoubtedly be some extremely helpful information discovered today if investigation is done on these topics.

■ YUGAANTAR SOCIO-POLITICAL MOVEMENT

होगई है पीर पर्वत-सी पिघलनी चाहिए,
इस हिमालय से कोई गंगा निकलनी चाहिए।
मेरे सीनेमें नहीं तो तेरे सीने में सही,
हो कहीं भी आग, लेकिन आग जलनी चाहिए॥

(It has become like a mountain but must be melted. Out of this Himalaya, a Ganga has to come out. If not in my chest then in your chest, Wherever there is fire The fire should be burnt.)

The youth of the country has the potential to make society and the country more powerful through their honest contribution to the social and political field. Many problems of the country can be solved through social leadership, which is the need of the hour. Similarly, political leadership can also bring accurate solutions to many political and social problems of the country. Therefore, skilled and visionary youth leadership is indispensable for the progress of society and the country.

Day by day, new obstacles emerge, and “Yugaantar Social-Political Movement” is the first step toward eliminating prejudice. An attempt will be made to build the nation and the social fabric of society by involving the youth in constructive and productive endeavours.

■ YUGAANTAR FELLOWSHIP

A movement towards selflessness...

॥ स्वस्ति पंथा मनु चार॥

ऋग्वेद 5/51/15

(Let us follow the righteous path.)

(Rigveda - 5/5/15)

The widening chasm in society between high and low, little and large, rich and poor, is exceedingly perilous for a healthy society's future. In the direction of reducing the social gap that is arising and increasing day by day. The first step of the recurring campaign is in the direction of social building and nation building by keeping the youth active in positive and constructive activities through the medium of Yugaantar Socio-Political Movement (YSPM) means, "Yugaantar Fellowship".

Through this initiative, youngsters from urban and rural regions will devote 365 hours of a year for society, making efforts for Antyodaya and Gramodaya.

Through the "Dr. Kalam Urban Fellowship," 50 teams of 100 young people will adopt urban slums and work one hour a day to improve them.

Similarly, 100 young people would be organised into 50 teams through the "Swami Vivekananda Rural Fellowship" to adopt 50 underdeveloped villages in their district. Each Sunday, they will spend seven hours working to improve the community as a whole.

■ GUJARAT THINKERS' FEDERATION

**सहसा विदधीत न क्रियामविवेकः परमापदां पदम् ।
वृणते हि विमृश्यकारिणं गुणलुब्धाः स्वयमेव संपदः ॥**

(One should not act in a hurry. Thoughtless actions lead to problems. Wealth is charmed by virtues and chooses that person who acts after thinking correctly.)

Gujarat Thinkers Federation (GTF) aims to develop an ideological platform by bringing young and ingenious thinkers together from all across Gujarat on a single platform to brainstorm the bright future of Gujarat and the country at large.

It is a genuine endeavour to discover realistic solutions to the issues of the 21st century. In this era of knowledge, when half-truths and illusions abound, GTF shall be instrumental in leading the society "from illusions to clarity."

Since 2016, GTF has conducted four Thinkers' Meets in which youngsters from all around Gujarat have participated and attempted to discover answers to various challenges through conversations.
